

PIA ROMANA WENTY

HARD- & SOFTWARE DEVELOPER

ABOUT ME

I'm Pia Wenty, in 2014 I discovered my fascination for electronics and technical computer science while attending the HTBLuVA St. Pölten, and subsequently graduated from the school in 2019.

Currently I am enrolled in a Bachelor's program in Technical Physics and Master program in Energy and Measurement technology at the Vienna University of Technology.

Additionally, I have been participating in an extension study on digitalization at the same institution since March 2021, with the goal of enhancing my proficiency in programming and algorithms.
